THE GREAT SOUTHWESTERN ROUTE .- The public are to be congratulated on the completion and opening of the extension of the mers of Maryland and Virginia to their large and Orange and Alexandria Railroad to a point within a mile and a half of Lynchburg. The first passenger train from this end went over it on Saturday last, and the first from Lynchburg (coming this way) on yesterday. Passengers who made both trips assure us that it is the best and most comfortable new road to travel so far constructed in this country, and that it traverses a region full of interest from end to end. The running time of both these first trips redeemed the pledges of the direction, to save, by its use, six hours of the present travelling time between New Fanning Mills, Cider Mills, Spades,
Shovels, Forks, and a variety of articles usually terday, the meeting trains were detained found in a first-class Agricultural Store, which we two hours at a point twenty miles west of the Charlottesville, waiting for the finishing of sideling there, so that one train could switch off on it. It was completed Sunday though SUPER PHOS. LIME, &c. | the day was Sunday, in two hours. WE WOULD CALL THE ATTENTION OF GUANO Dealers, Planters, and Farmers, to the article which we have on hand, and for sale, at Thirty per cent. less than Peruvian Guano,

and which we claim to be superior to any Guano or Fertilizer ever imported or manufactured in this country. This GUANO is imported by WM. H. WEBB, of New York, from Jarvis' and Bakers' Islands, in the "South Pacific Ocean," and is sold genuine and pure as imported. It has been satisfactorily tested by many of our prominent Farmers, and analyzed by the most eminent and popular Agricultural Chemists, and found to contain (as will be seen by our circulars) a large per cent. of BONE PHOSPHATE OF LIME,

nis sufficient to produce immediate abundant crops, besides substantially enriching the soil. It can be freely used without danger of burning the seed or plant by coming in contact with it, as is the case with some other Fertilizers; retaining a great degree of moisture, it causes the plant to grow in a healthy condition, and as experience has proved, FREE OF INSECTS. For orders in any quantity (which will be promptly attended to,) or pamphlets containing full partioulars of analyses and tests of Farmers, apply to
